# Tradeweb Reports November 2023 Total Trading Volume of \$38.2 Trillion and Record Average Daily Volume of \$1.80 Trillion

## November 2023 ADV up 59.2% YoY

NEW YORK – December 5, 2023 – Tradeweb Markets Inc. (Nasdaq: TW), a leading, global operator of electronic marketplaces for rates, credit, equities and money markets, today reported total trading volume for November 2023 of \$38.2 trillion (tn). Average daily volume (ADV) for the month was a record \$1.80tn, an increase of 59.2 percent (%) year-over-year (YoY).

In November 2023, Tradeweb records included:

- ADV in U.S. government bonds
- ADV in European government bonds
- ADV in swaps/swaptions  $\geq$  1-year
- ADV in fully electronic U.S. High Grade credit
- ADV European credit
- ADV in equity convertibles/swaps/options
- ADV global repurchase agreements

### November 2023 Highlights

#### RATES

- U.S. government bond ADV was up 19.5% YoY to \$163.7 billion (bn). European government bond ADV was up 30.5% YoY to \$44.8bn.
  - Record U.S. government bond volumes were supported by growth across all client sectors, increased adoption across a diverse set of trading protocols on the institutional platform and sustained rates market volatility. Higher interest rates continued to drive trading in the retail market. Record European government bond volumes were supported by sustained rates market volatility and strong volumes by hedge fund accounts.
- Mortgage ADV was up 16.7% YoY to \$188.3bn.
  - Strong To-Be-Announced (TBA) volumes were driven by increased participation from hedge fund accounts as well as elevated roll activity. Specified pool activity increased >200% YoY with an uptick in origination trading on the platform.
- Swaps/swaptions  $\geq$  1-year ADV was up 178.4% YoY to \$580.8bn and total rates derivatives ADV was up 132.6% YoY to \$795.1bn.
  - Record volume in swaps/swaptions  $\geq$  1-year was driven in part by increased client activity and a 242% YoY increase in compression activity, which carries a lower fee per million. Quarter-to-date compression activity is running higher than 3Q23. Robust volumes were also driven by strong activity in global inflation swaps, the request-for-market (RFM) protocol and emerging market swaps.

#### CREDIT

- Fully electronic U.S. credit ADV was up 32.0% YoY to \$6.1bn and European credit ADV was up 29.7% YoY to \$2.3bn.
  - Strong U.S. credit volumes, most notably record ADV in fully electronic U.S. High Grade activity, reflected continued client adoption in Tradeweb protocols, including request-for-quote (RFQ), as well as record adoption in Tradeweb AllTrade® and portfolio trading. Tradeweb's share of fully electronic U.S. High Grade and U.S. High Yield TRACE was

16.7%, and 7.0%, respectively. Record European credit volumes were supported by strong activity in portfolio trading and Tradeweb Automated Intelligent Execution (AiEX).

- Municipal bonds ADV was down 0.2% YoY to \$475 million (mm).
  - While retail municipal bond activity remained somewhat muted against a broader backdrop of lower yields, a robust tax loss harvesting month by institutional asset managers kept flows in this part of the market significantly more positive.
- Credit derivatives ADV was down 7.8% YoY to \$9.8bn.
  - Tighter credit spreads led to lower overall swap execution facility (SEF) market activity.

## EQUITIES

- U.S. ETF ADV was up 4.5% YoY to \$7.0bn and European ETF ADV was up 10.0% YoY to \$2.6bn.
  - Institutional client engagement in U.S. ETFs remained robust, with a 4.5% increase in platform volumes YoY. European ETFs were up as broader market volumes remained relatively flat.

## MONEY MARKETS

- Repurchase agreement ADV was up 35.2% YoY to \$534.7bn.
  - Increased client adoption of Tradeweb's electronic trading solutions drove record global repo activity. Current U.S. market conditions shifted demand from the Federal Reserve's reverse repo facility to money markets. Retail money markets activity continued to be strong as interest rates remained elevated.

#### **Basis of Presentation**

All reported amounts are presented in U.S. dollars, unless otherwise indicated. In determining the reported U.S. dollar amounts for non-U.S. dollar denominated securities, the non-U.S. dollar amount for a particular month is translated into U.S. dollars based on the monthly average foreign exchange rate for the prior month. Please see the footnotes on page 3 of the full report for information regarding how we calculate market share amounts presented in this release.

#### **Market and Industry Data**

This press release and the complete report include estimates regarding market and industry data that we prepared based on our management's knowledge and experience in the markets in which we operate, together with information obtained from various sources, including publicly available information, industry reports and publications, surveys, our clients, trade and business organizations and other contacts in the markets in which we operate. In presenting this information, we have made certain assumptions that we believe to be reasonable based on such data and other similar sources and on our knowledge of, and our experience to date in, the markets in which we operate. While such information is believed to be reliable for the purposes used herein, no representations are made as to the accuracy or completeness thereof and we take no responsibility for such information.

#### **Forward-Looking Statements**

This release contains forward-looking statements within the meaning of the federal securities laws. Statements related to, among other things, our outlook and future performance, the industry and markets in which we operate, our expectations, beliefs, plans, strategies, objectives, prospects and assumptions and future events are forward-looking statements.

We have based these forward-looking statements on our current expectations, assumptions, estimates and projections. While we believe these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties, many of which are beyond our control. These and other important factors, including those discussed under the heading "Risk Factors" in documents of Tradeweb Markets Inc. on file with or furnished to the SEC, may cause our actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements. In particular, preliminary average variable fees per million dollars of volume traded are subject to the completion of management's final review and our other financial closing procedures and therefore are subject to change. Given these risks and uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements contained in this release are not guarantees of future performance and our actual results of operations, financial condition or liquidity, and the development of the industry and markets in which we operate, may differ materially from the forward-looking statements contained in this release. In addition, even if our results of operations, financial condition or liquidity, and events in the industry and markets in which we operate, are consistent with the forward-looking statements contained in this release, they may not be predictive of results or developments in future periods.

Any forward-looking statement that we make in this release speaks only as of the date of such statement. Except as required by law, we do not undertake any obligation to update or revise, or to publicly announce any update or revision to, any of the forward-looking statements, whether as a result of new information, future events or otherwise, after the date of this release.
